RWANDA CONDEMNS STRIKE IN DOHA

Kigali, 11 September 2025

The Government of Rwanda unequivocally condemns the strike conducted by Israel in Doha, Qatar on September 9th, and extends its condolences to the State of Qatar for the death of its personnel, as well as their bereaved families.

The wanton trampling of foundational norms of interstate relations is dangerous and unsettling, and is leading the world into a “no-rules-based order” for which there is no contemporary precedent.

The continued escalation is senseless, and yet the international community seems content to let it continue unchecked. The hypocrisy and complacency evident in such circumstances, especially from the most powerful, leaves the world vulnerable to growing chaos and uncertainty.

The State of Qatar is playing a crucial role in mediation efforts in some of the most complex and intractable situations in the Middle East and Africa, and this merits universal appreciation and gratitude.

The Government of Rwanda stands with the State of Qatar in this difficult time and calls for a principled, pragmatic, and swift resolution to the ongoing conflict in the region.
